An Experiential Workshop

TRY FAMILY CONSTELLATIONS – and RECLAIM your stuck energy as we move into the season of the harvest. We'll be combining Family Constellations, that gives you easy access the subconscious -- with SoulCollage®, creating a reminder of the energy that you gained.

FAMILY CONSTELLATIONS, a new-in-the-U.S. growth tool that has been popular in Europe, Japan and South America for decades, provides a 3-D demonstration of intergenerational trauma, relationship dynamics, etc. that helps release internal blocks.

SOULCOLLAGE®, now used in 42 countries around the world, provides a way for your deep subconscious to talk to you through images. Also learn how to work with your collage at home to continue your healing work.
